

# WEREWOLF

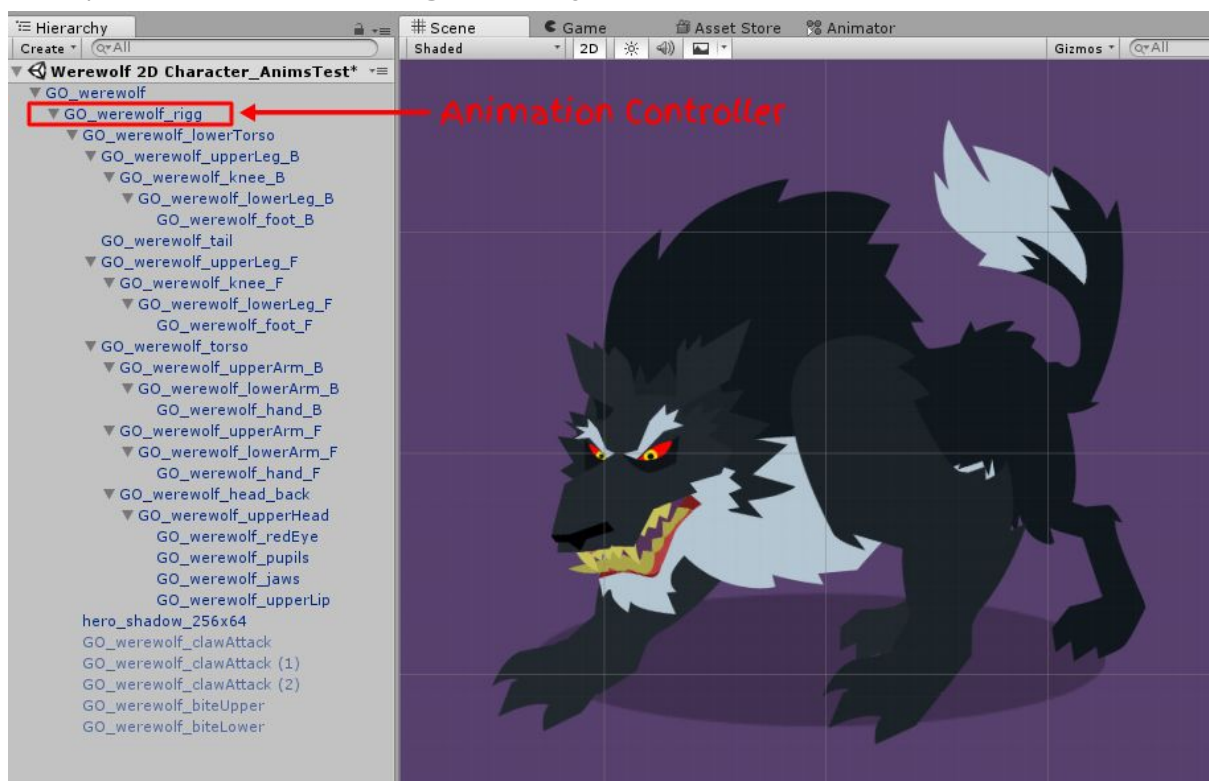

## 2D character Documentation

Congratulation and thank you for the acquisition of this package!

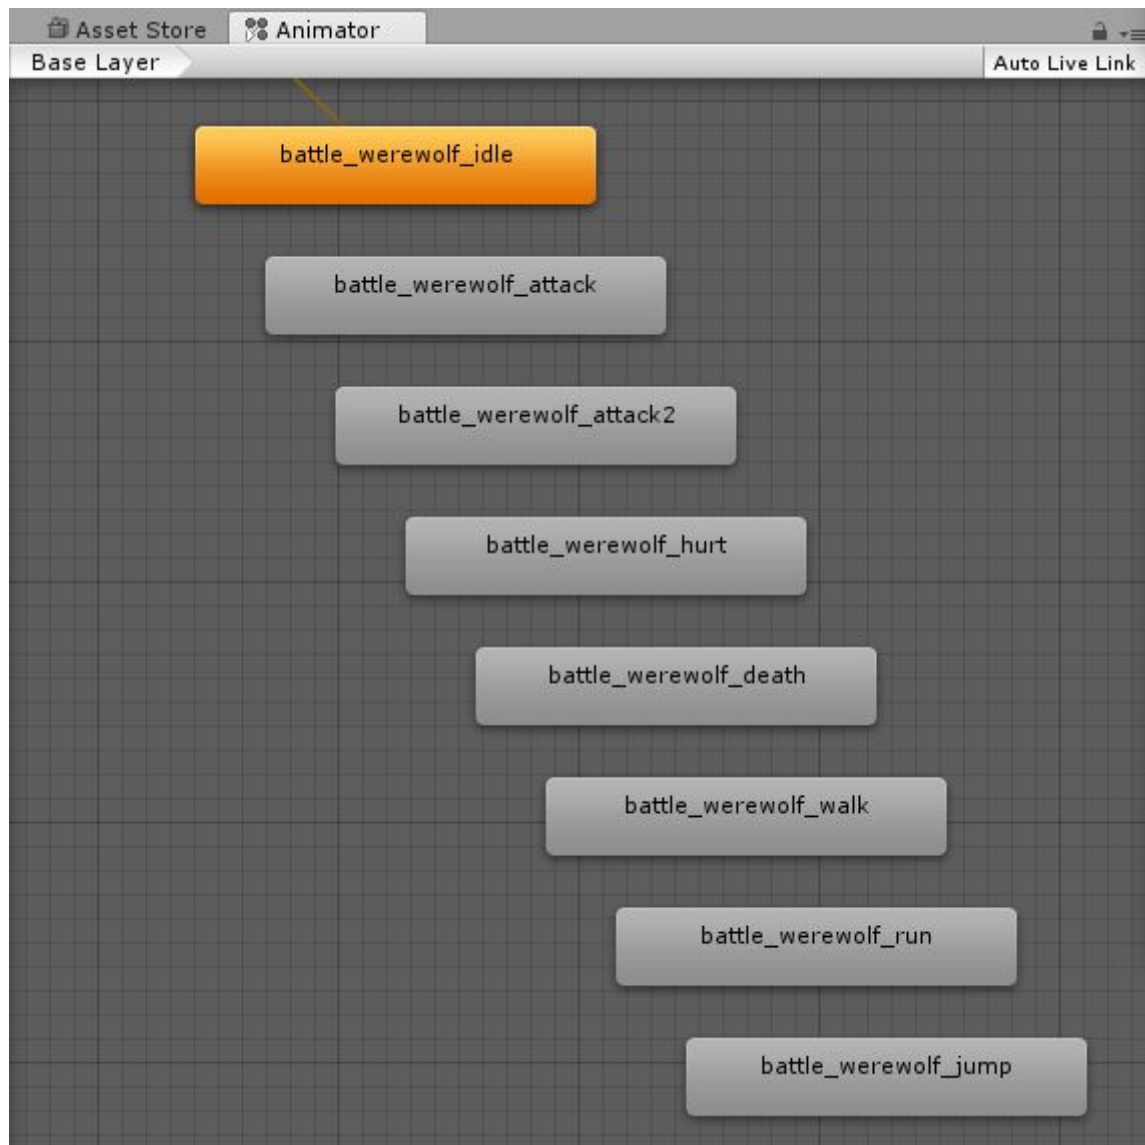

Under the folder “Werewolf 2D Character\Assets\Prefabs” you will find 6 prefabs:

To use the character on your scene, just drag the prefab to it.  
Each prefab has the following hierarchy:

Each character has 8 animations:

That's it, now you can make your project even better!
